SMRUTI RANJAN NAYAK

AI/ML Practitioner & Full-Stack Developer | DEV SHOWCASE

Email: smrutiranjan2412@gmail.com | Portfolio: https://smrutiportfolio.vercel.app/
GitHub: https://github.com/SMRU08 | LinkedIn: https://www.linkedin.com/in/smruti-ranjan-nayak-67a733360

EDUCATION

*** B.Tech Computer Science & Engineering (2024 - 2028)**
Synergy Institute of Engineering & Technology, Dhenkanal | CGPA: 7.5 through 2nd Year

*** Higher Secondary - Class 12 Science, CHSE Odisha (2024)**
Sri Aurobinda Science Higher Secondary School, Cuttack | First Division

*** Secondary School - Class 10, BSE Odisha (2022)**
Indipur High School, Dhenkanal | Distinction

FEATURED PROJECTS

*** SafeSync - AI Vision-Based Industrial Safety Monitoring (BPUT Hackathon 2026)**
Technologies: Python, FastAPI, React 18, TypeScript, Vite, Computer Vision. 306 passing tests.
Real-time computer vision for workplace PPE compliance, combustion detection & risk assessment.
Demo: https://safesync-xerses.vercel.app | Repo: https://github.com/SMRU08/SafeSync

*** JANBHASHA - Offline AI Vernacular Pedagogy Platform (Smart India Hackathon SIH 2026)**
Technologies: React Native, TypeScript, Python, ONNX Runtime Mobile, Kotlin, C++17 JSI, Edge AI.
100% air-gapped on-device neural translation for Santali (Ol Chiki), Ho & Mundari for primary schools.
Repo: https://github.com/SMRU08/JANBHASHA

*** Face Recognition Attendance System (CTTC Capstone)**
Technologies: Python, OpenCV, Machine Learning, Keras, Computer Vision.
Real-time automated face detection and verification attendance tracking system.

*** Real-Time Emotion Detection**
Technologies: Python, OpenCV, NumPy, TensorFlow, Keras, Computer Vision.
Facial landmark analysis and real-time expression recognition using deep learning.

*** Personal Portfolio Website**
Technologies: React, Vite, JavaScript, Tailwind CSS, Framer Motion, GSAP, Lenis.
Demo: https://smrutiportfolio.vercel.app/ | Repo: https://github.com/SMRU08

INTERNSHIP EXPERIENCE

*** Artificial Intelligence & Machine Learning Intern (16 June 2026 - 15 July 2026)**
Central Tool Room & Training Centre (CTTC), Bhubaneswar
Topics: Python, Machine Learning, NLP, Computer Vision, Deep Learning using Keras.
Capstone Project: Face Recognition Attendance System.

TECHNICAL SKILLS

* Programming & Core: C, C++, Python, Java, HTML, CSS, JavaScript, TypeScript, Node.js, FastAPI, SQL.
* AI / ML / Vision: OpenCV, NumPy, TensorFlow, Keras, ONNX Runtime, Machine Learning, Deep Learning, NLP.
* Frontend & Mobile: React, React Native, Vite, Tailwind CSS, Framer Motion, GSAP, Lenis.
* Tools & Platforms: Git, GitHub, VS Code.

CERTIFICATIONS

* Managing Machine Learning Projects (Coursera - Mar 2024)
* Introduction to Machine Learning (Coursera - Mar 2024)
* Data Science in Python (University of Michigan - Mar 2024)
* Introduction to Big Data (UC San Diego - Apr 2024)
* Programming for Everybody - Python (Coursera - Apr 2024)
* Play It Safe: Manage Security Risks (Google - Apr 2024)
* AI Strategic Approach to Cybersecurity (Coursera - Mar 2024)
* Introduction to Artificial Intelligence (IBM - Mar 2024)
* Cybersecurity Essentials (IBM - Apr 2024)
